

MONITOR II A.N.C.

TAGLINE

SUPERIOR SIGNATURE SOUND WITH ACTIVE NOISE CANCELLING

PRODUCT COPY

Inspired by Marshall heritage, Monitor II A.N.C. headphones are authentic yet modern, delivering high performance sound like you've never heard before. Advanced active noise cancelling technology blocks out the noise, letting you focus on what matters most – the music. Featuring custom tuned 40 mm dynamic drivers, these headphones produce a superior signature sound only Marshall can deliver.

Engineered for an all-day listening experience, they boast up to 30 hours of wireless playtime with active noise cancelling and up to 45 hours without, meaning you'll never miss a beat. While the unique ergonomic construction means no matter how hard and heavy the music, they will rest lightly on your head for the perfect fit. Monitor II A.N.C. headphones are truly made for the long haul.

UNIQUE SELLING POINTS

1. ACTIVE NOISE CANCELLING

Short: Monitor II A.N.C. headphones utilise advanced active noise cancelling technology that blocks out the noise, letting you focus on what matters most – the music.

Medium: Monitor II A.N.C. headphones utilise advanced active noise cancelling technology that continuously pinpoints and measures ambient noise in order to block out the things you don't want to hear. Now you can focus on what matters most – the music.

Long: Monitor II A.N.C. headphones utilise advanced active noise cancelling technology that continuously pinpoints and measures ambient noise in order to block out the things you don't want to hear. Now you can focus on what matters most – the music.

Customise the level of noise cancelling you want with the Marshall Bluetooth app. With ten levels of noise cancellation you can find your ideal setting, from complete isolation to letting some of the outside world in. Need to have a conversation? Engage Monitoring Mode with a quick press of the ANC button on your headphones to pause the audio and amplify your surroundings. You're in complete control.

2. ICONIC SOUND

Short: Monitor II A.N.C. headphones feature custom tuned 40 mm dynamic drivers that produce a superior signature sound only Marshall can deliver.

Medium: Delivering high performance sound like you've never heard before. Monitor II A.N.C. headphones feature custom tuned 40 mm dynamic drivers that produce a superior signature sound only Marshall can deliver.

Long: Delivering high performance sound like you've never heard before. Monitor II A.N.C. headphones feature custom tuned 40 mm dynamic drivers that produce a superior signature sound only Marshall can deliver. Bright and crisp highs, punchy mids and deep bass are balanced and clear, no matter the volume.

Customise your sound. The M button located on the headphones allows you to quickly toggle between three different equaliser settings of your choice. Set the EQs within the Marshall Bluetooth app by selecting from several EQ presets or customise your own.

3. UP TO 30 HOURS OF WIRELESS PLAYTIME

Short: Monitor II A.N.C. headphones keep the music going strong with up to 30 hours of wireless playtime with active noise cancelling.

Medium: Monitor II A.N.C. headphones keep the music going strong with up to 30 hours of wireless playtime with active noise cancelling and up to 45 hours without. If you need to charge in a hurry, you can get up to five hours of wireless playtime after just 15 minutes of charging. Bluetooth technology provides exceptional audio quality and the freedom and convenience to move.

Long: Monitor II A.N.C. headphones keep the music going strong with up to 30 hours of wireless playtime with active noise cancelling and up to 45 hours without, meaning you'll never miss a beat. If you need to charge in a hurry, you can get up to five hours of wireless playtime after just 15 minutes of charging. Bluetooth technology provides exceptional audio quality and the freedom and convenience to move with a 30 foot wireless listening range.

4. ERGONOMIC CONSTRUCTION, ICONIC DESIGN

Short: Monitor II A.N.C. headphones deliver an ergonomic all-day listening experience, while continuing to hold true to the classic Marshall look.

Medium: Monitor II A.N.C. headphones deliver an ergonomic all-day listening experience with a unique over-ear design. Super soft ear cushions and a plush headband with metal swivel rotation hinges perfectly adapt to any head shape for sealing and comfort. All while continuing to hold true to the classic Marshall look.

Long: Monitor II A.N.C. headphones deliver an ergonomic all-day listening experience with a unique over-ear design. Super soft ear cushions and a plush headband with metal swivel rotation hinges perfectly adapt to any head shape for sealing and comfort. Textured black vinyl, brass accents and the embossed Marshall script all give these headphones the classic Marshall look.

5. VOICE ASSISTANT

Short: Get help on-the-go from your Google Assistant.

Medium: Get help on-the-go from your Google Assistant. Enjoy entertainment, stay connected to friends, get information and manage your day—all without glancing at your phone.

After set-up, your Assistant is ready to help by simply pressing the M button on your headphones.

Long: Get help on-the-go from your Google Assistant. After set-up, simply press the M button on your headphones.

Enjoy Entertainment

With a press and hold of the M button, you can play songs, playlists, artists and albums. Just say "play my Indie Rock playlist". Plus, enjoy podcasts, radio and news.

Keep in Touch

Get notified about calls, messages or events and reply using your voice. Simply press and hold the M button and say "text Jim, 'I'm on the way'".

Get Answers

Ask your Assistant "find me the closest record store", then your Assistant can help you with directions right to the door. You can even ask your Assistant "when does the record store close?" to make sure you get there on time. In addition, you can get answers on things you want to know like the latest on the weather, traffic, reminders and more.

Manage your Day

Set reminders and timers. Ask your Assistant to "remind me to buy tickets to the show at 7pm". Or, get help with things like your daily schedule. Simply say "what's my schedule today?".

6. COLLAPSIBLE DESIGN

Short: Monitor II A.N.C. headphones feature a collapsible design.

Medium: With their collapsible design, Monitor II A.N.C. headphones are the ultimate travelling companion.

Long: With their collapsible design, Monitor II A.N.C. headphones are the ultimate travelling companion. Their compact size and foldable design makes them perfect to withstand long days on the road.

7. TAKE CONTROL OF WHAT YOU HEAR

Short: Multi-Directional Control Knob: Control your music and phone functionality.

ANC Button: Toggle between active noise cancelling, Monitoring Mode or turn off active noise cancelling all together.

M-Button: The multi-function M-button lets you switch between three equaliser presets or alternatively, access your voice assistant on-the-go.

Marshall Bluetooth app: Personalise your settings and access everything the Monitor II A.N.C. headphones have to offer.

Medium: Multi-Directional Control Knob: Play, pause and shuffle your music. Adjust the volume of your device and control phone functionality.

ANC Button: Toggle between three different settings; active noise cancelling on, Monitoring Mode engaged for quick conversations and active noise cancelling off.

M-Button: The multi-function M-Button lets you switch between three different equaliser presets or alternatively, it can be programmed to instantly access your voice assistant. It's up to you.

Marshall Bluetooth app: Personalise your settings and access everything the Monitor II A.N.C. headphones have to offer. Customise the level of noise cancelling, monitoring transparency, equaliser settings and setup your voice assistant.

Long: Multi-Directional Control Knob: Play, pause and shuffle your music. Adjust the volume of your device or answer, reject and end a phone call. All with a few simple clicks.

ANC Button: Toggle between three different settings. Active noise cancelling on, to block out the noise around you. Monitoring Mode engaged, to amplify your surroundings and pause the audio for a quick conversation. As well as turning noise cancelling off, for when you need to save on some battery life.

M-Button: The multi-function M-Button lets you switch between three different equaliser presets so you can customise your sound for a personalised listening experience. Alternatively, it can be programmed to instantly access your voice assistant for help on-the-go. It's up to you.

Marshall Bluetooth app:
Personalise your settings and access everything the Monitor II A.N.C. headphones have to offer.

- Customise the amount of active noise cancelling you want, choosing from ten levels.
- Adjust the level of transparency for Monitoring Mode, choosing from ten levels.
- Set your three EQ presets, selecting from several pre-populated equalisers or create your own for that perfect sound.
- Get help on-the-go by setting up your voice assistant.

Once your preferences are saved, you can access them with ease using the dedicated buttons on your headphones.

8. TRAVEL KIT

- Short:** Made for journeys short or long - included is a USB-C charging cable, a detachable 3.5 mm cord and a canvas-carrying bag to stow it all away.
- Medium:** Made for journeys short or long - included is a USB-C charging cable, a detachable 3.5 mm cord if you're ever low on power and a canvas-carrying bag to stow it all away for easy transport and storage.
- Long:** Made for journeys short or long - included is a USB-C charging cable to recharge the battery, a detachable 3.5 mm cord to plug into the empty socket if you're ever low on power and a canvas-carrying bag to stow it all away for easy transport and storage.
